

Husband and wife win coveted trade award

A LOGAN pest control company has been named champion trade service at the recent Australian Small Business Champion Awards.

Underwood-based D-Tec Pest Solutions received the award in recognition of their dedication and hard work, including their immediate termite-removal service, 24-hour availability and modern treatments including non-pesticide and environ-

mental friendly treatments. It is the fourth award the business has won this year, after they won the Logan Chamber of Commerce Business of the Year Award at the *Albert & Logan News* Business Achievers Awards.

They also won an Australian Home Based Business Award, the Small Business Champion Awards and were named the national winner of the Small

Business Champion Awards 2007 - Trade Services.

Mr Glancy said he and his wife, Tanya, were pleased to win the coveted award.

"We hope this inspires other Logan business to participate next year," he said.

He and Tanya only realised the extent of their win when it was announced more than 600 small businesses had entered.

■ Mark and Tanya Glancy.
